FedEx Ground® Multiweight

FedEx Ground Multiweight enables you to combine multiple packages moving from the same origin to the same destination into one shipment—no palletizing, shrinkwrapping, staging or shipment segregation required. FedEx Ground will calculate the rate of your shipment as both individual packages and as one entire shipment, then charge you the lower of the two rates. To qualify for FedEx Ground Multiweight, the total shipment weight must be greater than or equal to 40 lbs. (18.5 kg) with a minimum average package weight of 15 lbs. (7 kg).*

For more information, visit [fedex.ca](https://www.fedex.ca) or call 1.800.GoFedEx 1.800.463.3339.

How to Determine Your Rates:

To determine door-to-door rates for your FedEx Ground Multiweight shipments:

Step 1: Add the weight of each package to determine the total shipment weight.

Step 2: Determine the applicable zone by locating the origin and destination postal code on the applicable zone chart.

Step 3: Look up the rate per pound using the FedEx Ground Multiweight chart.

Step 4: Multiply the total shipment weight by the rate per pound to determine the cost of the FedEx Ground Multiweight shipment.

Step 5: Add special handling fees and other additional charges, if any. See page 44 for a list of these fees.

FedEx International Ground™ Multiweight

FedEx International Ground Multiweight enables you to combine multiple packages moving from the same origin to the same destination into one shipment—no palletizing, shrinkwrapping, staging or shipment segregation required. FedEx Ground will calculate the rate of your shipment as both individual packages and as one entire shipment, then charge you the lower of the two rates. To qualify for FedEx International Ground Multiweight, the total shipment weight must be greater than or equal to 30 lbs. (14 kg) with a minimum average package weight of 15 lbs. (7 kg).*

For more information, visit [fedex.ca](https://www.fedex.ca) or call 1.800.GoFedEx 1.800.463.3339.

How to Determine Your Rates:

To determine door-to-door rates for your FedEx International Ground Multiweight shipments.

Step 1: Add the weight of each package to determine total shipment weight.

Step 2: Determine the applicable zone by using the U.S. Zone Chart on page 40.

Step 3: Look up the rate per pound using the FedEx International Ground Multiweight chart.

Step 4: Multiply the total shipment weight by the rate per pound to determine the cost of the FedEx International Ground Multiweight shipment.

Step 5: Add special handling fees and other additional charges, if any. See pages 46 and 47 for a list of these fees.
