How to Determine Your FedEx Ground Rates

To determine the door-to-door rate for your intra-Canada shipments follow these simple steps:

Step 1: Determine the applicable zone by locating the origin and destination postal codes for your package(s) on the appropriate FedEx Ground Zone Charts on pages 3 to 33.

To find your origin postal code, please refer to Shipment Origin (postal code listing) at the top of each page.

To find your destination postal code, please refer to the applicable postal code column on each page.

Step 2: Determine how much your package weighs and find your package weight in the appropriate zone on the FedEx Ground rate charts on pages 34 to 37.

Step 3: Determine your rate for FedEx Ground service from the FedEx Ground Rate charts on pages 34 to 37 based on your package weight and zone.

Step 4: Add special handling fees and other additional charges, if any. See page 44 for a list of these fees and charges.

To start shipping with FedEx Ground, please call 1.800.GoFedEx 1.800.463.3339.

FedEx Ground® Multiweight

FedEx Ground Multiweight enables you to combine multiple packages moving from the same origin to the same destination into one shipment—no palletizing, shrinkwrapping, staging or shipment segregation required. FedEx Ground will calculate the rate of your shipment as both individual packages and as one entire shipment, then charge you the lower of the two rates. To qualify for FedEx Ground Multiweight, the total shipment weight must be greater than or equal to 40 lbs. (18.5 kg) with a minimum average package weight of 15 lbs. (7 kg).*

For more information, visit [fedex.ca](https://www.fedex.ca) or call 1.800.GoFedEx 1.800.463.3339.

How to Determine Your Rates:

To determine door-to-door rates for your FedEx Ground Multiweight shipments:

Step 1: Add the weight of each package to determine the total shipment weight.

Step 2: Determine the applicable zone by locating the origin and destination codes for your package(s) on the FedEx Ground Zone Charts on pages 3 to 33.

Step 3: Look up the rate per pound using your FedEx Ground Multiweight chart based on the applicable zone.

Step 4: Multiply the total shipment weight by the rate per pound to determine the cost of the FedEx Ground Multiweight shipment.

Step 5: Add special handling fees and other additional charges, if any. See page 44 for a list of these fees and charges.

FedEx International Ground™ Multiweight

FedEx International Ground Multiweight enables you to combine multiple packages moving from the same origin to the same destination into one shipment—no palletizing, shrinkwrapping, staging or shipment segregation required. FedEx Ground® will calculate the rate of your shipment as both individual packages and as one entire shipment, then charge you the lower of the two rates. To qualify for FedEx International Ground Multiweight, the total shipment weight must be greater than or equal to 30 lbs. (14 kg) with a minimum average package weight of 15 lbs. (7 kg).*

For more information, visit [fedex.ca](https://www.fedex.ca) or call 1.800.GoFedEx 1.800.463.3339.

How to Determine Your Rates:

To determine door-to-door rates for your FedEx International Ground Multiweight shipments.

Step 1: Add the weight of each package to determine the total shipment weight.

Step 2: Determine the applicable zone by using the U.S. Zone Chart on page 40.

Step 3: Look up the rate per pound using your FedEx International Ground Multiweight chart based on the applicable zone.

Step 4: Multiply the total shipment weight by the rate per pound to determine the cost of the FedEx International Ground Multiweight shipment.

Step 5: Add special handling fees and other additional charges, if any. See page 46 for a list of these fees and charges.
