FedEx International Priority® - Europe

Export Tariffs applicable in United Kingdom as from 5 January 2009

How to use this tariff

- Determine the **zone** of the destination and the **weight** of your shipment to find the rate in the appropriate column.
- To calculate rates for shipments from 10kg up to 70kg, take the appropriate base rate (10kg, 21kg or 45kg) and add the rate for each additional 0.5kg.
- For shipments above 70kg simply multiply the quoted rate per kg by the total shipment weight.

For example, a 13.5kg shipment would use the rate for 10kg, plus seven times the rate for an additional 0.5kg.
