

# Integrated XML Solutions for You and Your Customers.

With the launch of the new FedEx Freight and FedEx National LTL Web site, we are also introducing new XML solutions that combine previously separate XML transactions into one freight solution. With our newly aligned XML solutions, you can now manage all your regional and long-haul LTL (less-than-truckload) freight shipping from one XML interface, increasing efficiency and offering your business more freight solutions than ever before.

## **New XML Capabilities**

- Access to regional and long-haul services within a single XML interface.
- One solution for scheduling regional and long-haul shipments.
- Obtain account-specific rates for regional, long-haul and guaranteed shipments.
- Access to newly integrated Web site applications.
- Integrated service and rating options.

## **Enhanced XML Solutions**

- Tracking
- Rates
- Pickup Requests
- Bill of Lading
- Transit Times
- Images

## **Make the Switch**

If you are currently using previous XML solutions from FedEx Freight or FedEx National LTL, these versions will be retired soon. To fully access the power of our newly integrated Web site, make the switch today.

To register and receive the new XML specifications, call our Technical Help Desk at **1.800.435.7949**.

**If you are currently using previous XML solutions from FedEx Freight or FedEx National LTL, these versions will be retired soon after the new solution is made available. To register and receive the new specifications, please call 1.800.435.7949 today.**
