PACKAGING TIPS

Packaging Tips

Protect your jewelry, gemstones and precious metals.

These packaging pointers will come in handy when shipping with the FedEx Declared Value Exception program.

- Always ship in sturdy, nondescript boxes and seal with high-quality packing tape. Never ship valuables in any type of envelope or folder.
- Use boxes larger than 7" x 4" x 2". All packaging other than the FedEx® Small Box, FedEx® Medium Box and FedEx® Large Box must be reviewed by FedEx security and packaging engineers.
- Pack boxes with care. Use packaging material to properly cushion your items and avoid shifting or rattling of box contents.
- Double-box your packages. For extra protection, reinforce your shipments by placing valuables inside a FedEx Security Box or a FedEx Safe Box.
- Place a copy of your company's packing slip inside the inner shipping box. Include the FedEx tracking number and contact information for both the sender and the recipient.
- Address your packages carefully. To avoid revealing the contents, label the outside box cautiously; never use business names or jewelry terms in the shipping or return addresses.
- If shipping multiple packages, avoid taping the boxes together.

It is important to notify package recipients about the contents of your shipment and its expected delivery date and time. Recipients should also be encouraged to check each package before signing for delivery.

SHIPPING TOOLS

Shipping Tools

Take advantage of support for high-value shipping.

We know the importance of getting your high-value items delivered safely and efficiently, so we offer special shipping tools to help.

Protective packaging. FedEx offers both the FedEx Security Box and the FedEx Safe Box that fit securely into a FedEx® Medium Box or a FedEx® Large Box. For more information, or to order these materials, go to [fedex.com/us/services/options/dvx/packaging.html](https://www.fedex.com/us/services/options/dvx/packaging.html).

Customized shipping. When shipping high-value items, we suggest using FedEx Priority Overnight® or FedEx Standard Overnight® service and requiring that a signature be obtained upon delivery. Choose Saturday delivery when tendering your shipments on a Friday.

Convenient pickup or drop-off. You can schedule a daily pickup, or drop off your declared value exception packages at select FedEx and FedEx Office locations equipped to handle high-value goods. When dropping off, be sure to hand your packages directly to a FedEx agent or FedEx Office team member and ask for a receipt. To obtain a list of participating drop-off locations, call 1.800.GoFedEx 1.800.463.3339 or refer to your FedEx Declared Value Exception Agreement.

Informative package status tracking. With FedEx InSight®, a Web-based tracking application, you can stay updated on the status of your shipments and be notified when your packages are delivered.
