

No time? No problem.

Meet freight deadlines fast. **FedEx Freight® Priority** offers the fastest published transit times of any nationwide LTL service, and now you can add even more speed to time-sensitive shipments **within the U.S.**

With FedEx Freight® Priority Plus, you can take advantage of **the fastest delivery option available through FedEx Freight** — even if your shipment is already in transit.

Freight + Speed

Make sure your freight arrives on time. Each shipment is optimized to travel with specialized routing options, all geared to speeding up your delivery. Even if your shipment is in transit, you can still take advantage of this speed. Should a shipment become more urgent after it's already been shipped, you can request to upgrade its speed to FedEx Freight Priority Plus to meet your new timing needs.

Freight + Reliability

FedEx Freight Priority Plus shipments provide end-to-end shipment visibility and are backed by a money-back guarantee.* You can also take advantage of time-definite delivery windows not covered through typical A.M. delivery, such as early-morning, after-hours, and even Saturday delivery. Let our team of transportation analysts help you find the best option for your specific shipment.

All FedEx Freight® services are subject to the terms and conditions of the FXF 100 Series Rules Tariff.
