Effective January 1, 2024  
Updated August 15, 2024

Your shipment may incur fees in addition to its base rate. The following are descriptions of those fees plus other shipping information. See the Terms and Conditions in the [FedEx Service Guide](#) for more information. See the [FedEx Service Guide](#) for information on the fees that may apply to FedEx One Rate<sup>®</sup> shipments. Separate fees apply for FedEx SameDay<sup>®</sup>. FedEx shipments from the U.S. to Puerto Rico are assessed the same fees that apply to FedEx shipments within the U.S., unless otherwise specified.

For FedEx U.S. import shipments, fees vary depending on origin country or territory; however, each fee works the same as for U.S. export. Call 1.800.463.3339 and say “international services” for package service fees applicable from your origin country or territory, or 1.800.332.0807 for freight service fees.

For FedEx Freight fee information, refer to the [FXF 100 Series Rules Tariff](#).

<p><b>Additional Handling Surcharge — Non-stackable</b></p> <p>A surcharge applies to any freight handling unit of a freight shipment that is non-stackable. Non-stackable means the freight handling unit cannot be stacked vertically in a safe and secure manner. Examples include, but are not limited to, non-stackable freight handling units that: 1) do not have a flat and stable top or base; 2) may be damaged if another piece is loaded on them; or 3) have flat and stable loading surfaces but are too narrow to safely and securely support other freight handling units (e.g., 1–2 barrels or drums). A surcharge also applies to any freight handling unit identified by the shipper as non-stackable. This surcharge applies on a per-freight-handling-unit basis even if multiple pieces of freight are bundled in a shipment.</p> <p>For more information on preparing and palletizing freight, access our comprehensive Packaging Guidelines for Shipping Freight brochure online at <a href="https://fedex.com/en-us/shipping/packing.html">fedex.com/en-us/shipping/packing.html</a>.</p>	<p>U.S. Express Freight Services</p> <p>FedEx International Priority Freight, FedEx International Economy Freight, FedEx International Deferred Freight</p>	<p>\$320 per freight handling unit</p> <p><b>Effective Jan. 1, 2024</b> \$310 per shipment</p> <p><b>Effective Jan. 15, 2024</b> \$310 per freight handling unit</p>
<p><b>Address Correction</b></p> <p>If the shipper provides an incomplete or incorrect recipient address, we may attempt to find the correct address and complete delivery. We may use the address included in the shipper's electronic shipment information to determine whether an address correction is necessary. We will assess a shipping fee. For shipments receiving FedEx Express Multiweight® pricing, the fee is \$22.50 per package up to a maximum of \$157.50 per shipment. Address correction is also required if the recipient phone number is omitted for a Rural Delivery (RD) address or a Star Route Assignment (SRA) address in Alaska. If we are unable to complete delivery, we are not liable for failing to meet our delivery commitment.</p> <p>Within the U.S., we also will assess this fee if the address is a P.O. box number or P.O. box ZIP code. For international shipments destined to a P.O. box address, we may assess the fee if a valid telephone, fax, or telex number is not provided for the recipient.</p> <p>For FedEx International Broker Select®, the address correction fee will apply if the broker's address is incomplete or incorrect on the air waybill or other shipping documentation. If we cannot determine the correct address or cannot reach the broker, we may attempt to contact the sender for address clarification or instructions to return the shipment. If we are unable to complete delivery under these circumstances, we will not be liable for failing to meet our delivery commitment.</p> <p>For FedEx Ground® and FedEx Home Delivery® shipments, if the shipper provides an incomplete, incorrect, or P.O. box recipient address, we may attempt to determine the correct address, complete delivery, and notify the shipper of the address correction. We may use the address included in the shipper's electronic shipment information to determine whether an address correction is necessary. We assess an additional charge for delivery or attempted delivery to the corrected address. For shipments with contract-only FedEx Ground Multiweight® pricing, the fee is \$22.50 per package up to a maximum of \$67.50 per shipment. <b>Clearance Services and Related Fees</b>		
FedEx provides import clearance processing for international express package and international express freight shipments, and international ground shipments. FedEx may charge a clearance service fee, where applicable, on international shipments for clearance processing; for services requested by the shipper, recipient, or importer of record; or to recover the costs passed to FedEx by the regulatory agency for regulatory filing. Clearance service fees that are invoiced are described on a separate line item on the duty-and-tax invoice.		
We may apply these service fees, which are subject to change, to either a U.S.- or non-U.S.-based shipper, recipient, or designated third party. When possible, we will honor the shipper's request to bill these service fees to the payer as designated on the Bill Duties and Taxes section of the air waybill or shipping label. When we are unable to honor that request, the recipient may be invoiced for applicable clearance service.		
When the Bill Shipper or Bill Third Party option is selected to pay duty-and-tax charges, the payer will be invoiced for all applicable clearance service fees that are assessed for clearance in the destination country, including all fees resulting from clearance services that may have been requested by the recipient.		
For more information about the clearance service fees that may apply to your shipment, select your destination country from the list provided at <a href="https://fedex.com/en-us/ancillary-clearance-service.html">fedex.com/en-us/ancillary-clearance-service.html</a> .

<p><b>Dimensional Weight</b> Dimensional weight is calculated by multiplying the length by width by height of each package in inches and dividing the total by 139<sup>2</sup>. When dimensional weight applies per shipment, calculate the volume of each piece or freight handling unit in the shipment (multiply the length by width by height), then add those volumes together and divide the total by 139<sup>2</sup>. If the dimensional weight exceeds the actual weight, charges may be assessed based on the dimensional weight. If the chargeable weight of a FedEx Ground, FedEx Home Delivery, or FedEx International Ground shipment exceeds 150 lbs., a prorated per-pound rate will be used. Package shape and dimensions may change during transit, which can affect the package's dimensional weight and surcharge eligibility. If the dimensions change during transit, FedEx may make appropriate adjustments to the shipment charges at any time.</p> <p>Dimensions of one-half inch or greater are rounded up to the next whole number; dimensions less than one-half inch are rounded down.</p> <p>FedEx applies dimensional weight to all shipments in customer packaging and may apply it to shipments in FedEx packaging. Dimensional weight applies on a per-package or per-shipment basis for U.S. shipments, international shipments, and U.S.-to-Puerto Rico shipments. Dimensional weight is applicable on a per-freight-handling-unit basis for U.S. express freight shipments and on a per-freight-handling-unit or per-shipment basis for FedEx International Priority Freight, FedEx International Economy Freight, and FedEx International Deferred Freight shipments. Invoices include associated messages describing which of the package weights or dimensions was used if package detailed billing is enabled.</p> <p>All FedEx electronic shipping solutions can create shipping labels for FedEx multiple-piece shipments within the U.S., and will place a master tracking number and package-count sequence and total on each label.
